
RESONANCE 2026

The Escape from the Camazotz (ROBO RACE)

Overview:

- The gate has opened. The Escape From The Camazotz is a high-intensity robotics race where machines must navigate through a dynamic track filled with obstacles, technical sections, and high-speed zones inspired by unpredictable terrains.
- The event is designed to test multiple aspects of robotic performance across different stages. Only the most efficient and well-controlled robots will advance and emerge victorious.
- This year introduces a unique competitive twist, pushing the event beyond traditional formats and adding a new dimension to the challenge.

Prize Pool : ₹15,000 (1st: ₹10,000 | 2nd: ₹5,000)
Entry :₹300
Re-Entry :₹200

Event Format & Gameplay:

- The event will be conducted over two days, with progressive evaluation of robotic performance.
- The robot will be placed at the start line and begins when the timer starts
- The robot must remain on track at all times
- In case of deviation or skipping obstacles, will result in penalties added to total time
- The timer stops only when the entire robot crosses the finish line

Stage Progression:

- **Day 1:** Obstacle-based track. Performance determines qualification
- **Day 2:** Qualified teams compete in subsequent stages with varying track conditions focusing on speed, control, and consistency
- Depending on the stage, the track may include obstacles and technical sections or emphasize speed, continuous movement, and controlled performance.

RESONANCE 2026

Robot Specifications:

- Manual control (wired or wireless)
- Maximum dimensions:
  - Length: 300 mm
  - Width: 300 mm
  - Height: 250 mm
- Maximum weight: 5 kg
- Only electrically powered robots allowed (No IC engines)
- LEGO kits or ready-made assemblies are not permitted

Power Rules:

- **Allowed:**
  - Onboard battery
  - External stationary supply (via wire)
- **Battery Limits:**
  - Maximum allowed: 3S LiPo
  - Carry spare batteries or risk disqualification if your bot dies mid-run
- **For Wired Bots:**
  - Wire must remain slack at all times
  - Length must be sufficient to cover the entire arena

Rules & Regulations:

Participation:

- Each team may consist of up to 4 members
- A participant can be part of only one team
- A robot cannot be shared between teams

Event Conduct:

- Participants must follow all instructions given by the coordinators and judges
- Teams must report to the arena when called; failure to do so may lead to disqualification
- Only the designated handler is allowed to operate the robot during a run

RESONANCE 2026

Gameplay Compliance:

- The robot must operate strictly within track boundaries
- Any manual assistance during the run will result in penalties as defined
- Robots must be capable of completing the track independently without external support
- Participants must ensure controlled navigation, safe manoeuvring, and awareness of their surrounding under all competition conditions.

Technical & Operational:

- No modifications to the robot will be allowed after inspection unless permitted
- Teams are responsible for maintaining stable control throughout the run

Fair Play:

- Any attempt to gain unfair advantage will result in penalties or disqualification
- All participants must maintain discipline and sportsmanship

Disqualification:

A team may be disqualified if:

- Rules or instructions are violated
- The robot is operated in an unsafe or uncontrolled manner
- There is intentional interference with other participants or runs
- The arena or obstacles are deliberately damaged
- The robot fails to meet compliance requirements at any stage
- Respect the game, or get pulled into the void

Authority & Decisions:

- All decisions regarding gameplay, penalties, qualification, and results will be made by the organizing committee
- The judges' decision will be final and binding
- The organizers reserve the right to modify rules if required for smooth execution

Co-ordinators:

- BALAKRISHNA MANDREKAR - +91 90212 89951
- PRATIK KOTHARKAR - +91 87673 06522
- JATIN HOSMANI - +91 76208 57479
